# NEOLUX

## Brand, technology, history

Road safety places especially tough demands on lighting solutions for vehicles. This is why NEOLUX put their faith in *German Technology*.

### Safety thanks to German Technology

The NEOLUX brand means good quality headlights and signal lamps for price-conscious customers. Our product range includes special lamps for the discerning driver as well as standard replacement lamps. However, the following always applies: The intelligent lighting solutions from NEOLUX for cars, trucks, or motorcycles make German quality affordable.

NEOLUX products are durable, manufactured according to German quality standards to meet legal safety requirements. NEOLUX vehicle lighting includes headlights, auxiliary lights and signal lights, lighting solutions with xenon and LED technology.

### Research and development in Germany

Vehicle headlights must be bright and reliable. This is the only way to ensure safety on the roads. To guarantee this, NEOLUX adheres strictly to stringent German technology standards during the entire manufacturing process.

NEOLUX customers benefit from the wealth of expertise NEOLUX engineers use to keep developing technically demanding lighting solutions. An additional advantage is production exclusively according to strict German quality and safety standards, as NEOLUX is certified according to German standards.

Marketing and product management also takes place in Germany. This all flows into integrated processes ensuring that each light meets all legal requirements and thus the needs of the customers.

### History and tradition

The links between the NEOLUX and OSRAM brands have a rich history: In 1923, the Swiss S.A. Lumière, based in Molsheim in Alsace, built a light bulb factory with an annual production of 800,000 units, NEOLUX emerging as a brand in 1927. In the 1930's and 40's, OSRAM Germany gradually invested in the company. In 1952, OSRAM and NEOLUX agreed on a strategic partnership under which NEOLUX in France then sold OSRAM products under the NEOLUX brand. At the start of the 1960's, OSRAM acquired the rights to the OSRAM brand name for France, which had been lost during the First World War. Since 1965, NEOLUX was part of the OSRAM S.à.r.l. product portfolio. Today, the NEOLUX secondary brand is protected in more than ninety countries and is the hallmark of good quality headlights and indicator lights for price-conscious customers.

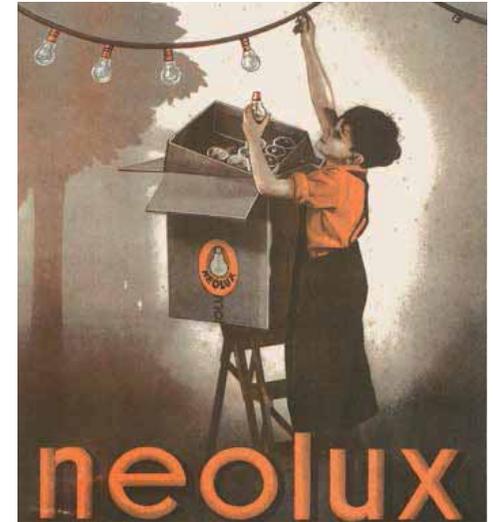

### German quality standards

Many years of working closely with OSRAM has created a good reputation for quality, not least because road safety can only be made a reality with bright and reliable vehicle lamps. To consider the needs of their customers, NEOLUX guarantees *German Technology* standards at all stages of the supply chain. The research and development of our engineers forms the basis of our reliable lamps, which are manufactured according to strict German safety and quality standards. In order to continue compliance with requirements, divisions such as Marketing and Product Management are also based in Germany.

### Broad product range

The validated German quality standards apply to the entire tried and trusted NEOLUX range of halogen and signal lamps, interior lighting right through to xenon and LED lamps. The NEOLUX portfolio therefore offers more than 90% of all key lamp technologies for cars, trucks, and motorcycles. The NEOLUX range is completed by products for special customer requirements. Clearly structured packaging and well-arranged displays make it easier for customers to select the right lamp type.

NEOLUX always has the right vehicle lamp for almost any driver.

### The NEOLUX story

- **During the First World War:** The OSRAM brand name rights in France were transferred to the Compagnie Française des Lampes based on the Versailles Treaties.
- **1923:** S.A. Lumière from Goldau, Switzerland builds a factory in Molsheim, France: La Lampe NEOLUX S.à.r.l. (Annual production: 800,000 light bulbs, 120 employees).
- **1927:** The NEOLUX brand is created.
- **During the 1930's and 40's:** OSRAM increases its share in La Lampe NEOLUX S.à.r.l.
- **1952:** OSRAM Germany and NEOLUX sign a strategic partnership agreement.
- **1957:** NEOLUX markets OSRAM products in France under the brand name NEOLUX.
- **In the early 1960's:** OSRAM Germany reacquires the brand name rights to OSRAM for France from Compagnie Française des Lampes.
- **Since 1965:** NEOLUX Molsheim is renamed OSRAM S.à.r.l.; NEOLUX has been part of their product portfolio.
- **Today:** The secondary brand NEOLUX is protected in more than 90 countries.

# Cars

## 12V Halogen headlight lamps

Car lamps from NEOLUX ensure good and clear view – and also that you are easily visible.

### Standard, Extra Light, Blue Light? The choice is yours!

The NEOLUX range of halogen headlight lamps offers solutions for almost any need.

### Your product benefits

- Broad product range
- Reliable quality
- Value for money

### Do you value a wide range and reliable quality?

Standard 12V halogen headlight lamps offer a variety of sockets and wattages.

### Want to see even more on the road?

The extra light 12V halogen headlight lamps from NEOLUX give up to 50% more light and in a longer light cone (compared to standard halogen lamps). The value for money is also outstanding.

### Do you follow trends and make choices based on design?

The bluish white light of our extra blue 12V halogen headlight lamps provide a stylish xenon look.

### Our 12V halogen solutions

# 12V Halogen off-road headlight lamps

Bright and high performance: the off-road lighting solutions from NEOLUX.  
For off-road driving only.

### Good vision. Good visibility.

The NEOLUX 12V halogen off-road lamps turn night into day, even on the most difficult terrain. They are robust and durable.

### Your benefits

- High performance
- Wide range
- Reliable quality
- Easy plug and play replacement

### Legal notice for off-road use

Only for off-road use, not approved for use on public roads.  
Illegal use leads to cancellation of vehicle operating licence and loss of insurance cover.

### 12V LED Interior lighting

LED lamps from NEOLUX perfectly illuminate the interior of your vehicle – with minimum energy consumption and high light output.

**Bright. Durable. Economical.**

NEOLUX LED car lamps need less energy than standard lamps – they can be used instead of most standard lamps in the vehicle interior, have a long life, and are available in color temperatures of 2,000 to 6,700 K.

**Your product benefits**

- Good light distribution
- No inadequate lighting
- Selection of light colors for a variety of applications
- Long life
- Low energy consumption

## 12V LED Retrofits

LED Retrofits from NEOLUX provide ideal illumination for interior and exterior vehicle applications, while consuming minimal energy. Upgrading your vehicle lamps has never been this simple and beneficial.

**Modern aesthetic. Timeless performance.**

NEOLUX LED Retrofits transform vehicle interiors and exteriors with modern, cold white light. Offering a seamless plug-and-play installation, NEOLUX LED Retrofits replace most traditional auxiliary lamps with ease. The results are more than aesthetic. The long-lasting, affordable NEOLUX LED lamps use less energy than conventional lamps.

With a color temperature of 6,000 K, NEOLUX has the ideal lamps for upgrading the interior and exterior appearance of your vehicle.

**Product benefits at a glance:**

- Even light distribution
- High brightness
- Contemporary, cold white light
- Easy plug-and-play upgrade of traditional lamps
- Affordable and reliable

**Legal notice for exterior use**

Only for off-road use, when used in an exterior application. These products do not have ECE approval. This means, they cannot be fitted in exterior lights if the vehicle is to be used on public roads. Illegal use leads to cancellation of vehicle operating licence and loss of insurance cover.

## Motorcycles

### 12V Halogen off-road headlight lamps

NEOLUX off-road lighting solutions for motorcycles meet the bikers' needs: They are robust with high performance.

#### Bright light. High visibility.

NEOLUX 12V halogen off-road lamps illuminate off-road terrain noticeably brighter and make it thus better interpretable. They also are very durable due to resilient materials.

#### Your product benefits

- High performance
- Reliable quality
- Easy plug and play replacement

#### Legal notice for off-road use

Only for off-road use, not approved for use on public roads. Illegal use leads to cancellation of vehicle operating licence and loss of insurance cover.

## Almost sells itself: The eye-catching NEOLUX packaging

NEOLUX car lamps are sold in folding boxes, in blister packs, or as sets and duo boxes. The packaging has been designed to reflect the product quality and makes the NEOLUX products even easier to recognize.

Consumer friendly and sales generators: The clear, concise, and quality design sets NEOLUX apart from the competition and promotes your sales. Product information is clearly arranged, the packaging is made from environmentally friendly materials and they are perfect for quick, space-saving storage.

### Concise and informative

The folding cartons allow your customers to find the right product immediately.

### Immediately persuasive

The blister packs (currently for car lamps) provide necessary key information at a glance and present the original product.

### Promotes spontaneous purchase

NEOLUX spare lamp set. In many countries it is compulsory to carry replacement lamps in your vehicle. The replacement boxes from NEOLUX contain the key spare lights for your customer – practical, handy, and easily storable in any car.

### Ideal as promotional placement

Headlight lamp duo boxes are excellent value for money.

## Sales promotion and customer service

Want to generate the most sales? NEOLUX supports you with intelligent campaigns for sales promotion and reliable customer service.

### Top sales – just like that!

NEOLUX supports its customers with effective marketing strategies, well-thought out sales logistics, and reliable delivery. Use our attractive PoS materials and advertising campaigns to generate additional sales.

### What else can we do for you?

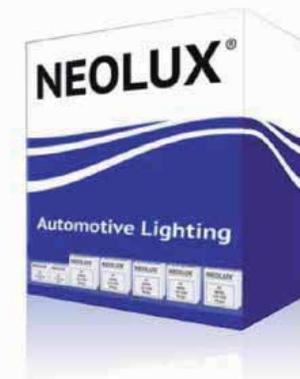

Our experts are happy to answer any questions you may have about NEOLUX products.

Please contact us at:  
[contact-en@neolux-lighting.com](mailto:contact-en@neolux-lighting.com)

### Arranged to boost sales

The floor display helps your customer quickly find what they need. Filled with 100 duo boxes.  
(Display size: approx. W 53 cm x H 166 cm x D 39 cm).

### Attractive and compact

NEOLUX lamp dispenser boxes. The functional boxes contain the NEOLUX top sellers, the H4 and H7 headlight lamps.  
(Display size: approx. W 40 cm x H 35 cm x D 16 cm).

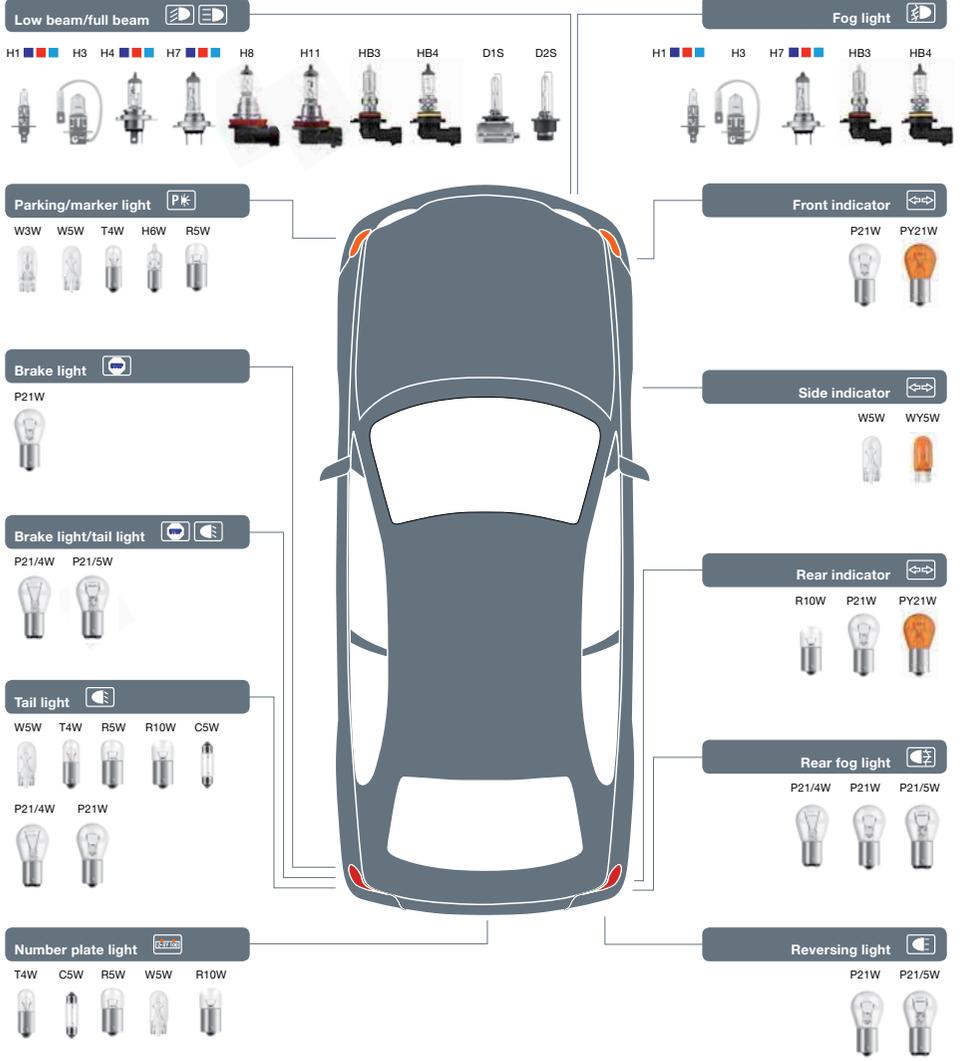

These lamps produced according to stringent German standards are very popular mainly with price-conscious customers.
